## **BioPure™ Electrolyte** *Enhanced Matrix Formula*

*Going back to the 1800's when Florence Nightingale wrote about the benefits of "beef tea", electrolytes have been known to have an important position in maintaining health. The need for balancing electrolytes is a critical health care condition that goes back many years.*

*In her book, Patient-Centered Approaches to Nursing, Faye Abdellah says, "maintenance of fluid and electrolyte balance" is an important nursing problem in the care of all patients. These words are no truer today than they were 40 years ago. Balancing electrolytes is the key to allowing both toxins and nutrients to flow in and out of the cells appropriately, Without the correct balance, a nutritional or detoxification protocol may not work as intended.*

**Healing Benefits:** improve the autonomic nervous system, dramatically enhance the absorption and clinical effectiveness of herbs, maintain stable blood pressure and circulation, detoxify metabolic waste, regulate body temperature, transport nutrients, detoxify metabolic waste, lubricate musculo-skeletal joints; promotes balance, vitality, and relaxation.

**Recommended Dosage:** 1 tablespoon of **BioPure Electrolyte** in an 8 oz cup of good water, 1-3 times a day.

Products available: **1 litre bottle Electrolyte Enhanced Matrix Formula**

**Ingredients:** Distilled Water, Phosphorous, Chloride, Potassium, Sodium, Bicarbonate, Magnesium, and Sulfate.

*Taste this product you will notice the many different tastes as it contains all the salts instead of just high amounts of sodium.*
