BioPure™ PC-Samento Extract Tincture

Uncaria tomentosa

(Cat's Claw, Peruvian Cat's Claw, Samento, Saventaro, Una de Gato, Uncaria guianensis)

For centuries Samento has been the most important plant used by the indigenous people of Peru. Now from the Peruvian Amazon comes a secret, which only recently has been unveiled: PC-Samento. Samento is known as natural antibiotic which also works for viruses, and herpes.

BioPure's PC-Samento is guaranteed to be 100% free of tetracyclic oxindole alkaloids, (TOAs). It is a standardized herb containing a minimum of 0.5% pentacyclic oxindole alkaloids (POAs).

Healing benefits: Arthritis, lowers blood pressure, immune-system support, possible abortifacient, anti-inflammatory, antibiotic, Lyme disease, broad spectrum anti-viral.

Cautions and contraindications: May interact with some prescription drugs. Not intended for use for children or during pregnancy or when breast feeding except under the care of a licensed medical practitioner. *Take PC-Samento and PC-Noni at least 30 minutes apart.*

Dosage: Consult your healthcare practitioner.

Products available: 1 oz tincture

Ingredients: Samento and organic alcohol (20% mix)
